ACADEMIC REGALIA

"(The) wearing of gowns by judges, ministers, teachers, and scholars is an ancient and impressive custom....As the graduating students of American high schools, colleges, and universities march in academic procession on Commencement Day to receive their diplomas or degrees, they, too, (and perhaps, for some, only this once in their lives) wear the caps and gowns of this long tradition....For a moment, they are wearing an ancient regalia, the proud badge of belonging to a great profession, that of student. Holding hands with students past and students present in a chain which goes back into history. Every detail should be keyed to stress the occasion as adventure, a turning point, something memorable and important."

Frank C. Baxter
Professor Emeritus of English
University of Southern California

At the end of the 19th century, colleges and universities in the United States were developing the kind of ruleless academic costume that emerged from the centuries in Great Britain. There and in the dominions, each university adopted its own costume without regard to what other institutions had done. The result was a confusing array of caps, gowns, and particularly hoods, each one of which must be separately memorized.

Recognizing this problem, American institutions responded in 1895 by creating an intercollegiate commission to consider a uniform code for academic costume. The resulting Intercollegiate Code regulated the design or pattern of gowns and hoods and the colors and materials to be used. The code was subsequently adopted by almost all of the colleges and universities in the country. It is still in use today, although slightly modified by successor committees appointed by the American Council on Education.

Gowns

The code provides for three types of gowns. Those for bachelor's students are made of black material and have long, pointed sleeves. They should be worn closed. The master's gown, also black, is made with an oblong sleeve, open at the wrist. The rear part of its oblong shape is square cut, and the front part has an arc cut away. It is also worn closed. In 2018, the university unveiled new custom regalia for bachelor's and master's students. The new gowns feature a cardinal band and the USC shield on the sleeves, along with cardinal piping. The custom regalia highlights the prestigious brand of USC in an elegant and timeless manner.

The doctor's gown is an elaborate costume marked by velvet panels down the front and around the neck and by three bars of the same material on the bell-shaped sleeves. It is cut much fuller than the other gowns and may be ornamented in color. (As a matter of practice, except in the areas of philosophy and law—dark blue and purple, respectively—faculty colors are rarely seen on the gown.)

The standard cap and gown are almost universally worn, but there are some outstanding deviations, including Harvard, Princeton, Yale, Stanford, Columbia, New York, Chicago and the University of Southern California. Cardinal and gold doctoral gowns were proposed for the university's centennial by Dr. Jerome B. Walker, centennial director, in 1980. Cardinal gowns with yellow velvet panels were first worn during President James H. Zumberge's inauguration in May 1981. For President Steven B. Sample's 1991 inauguration, the design for doctoral gowns was modified, adding red velvet panels framed by bright gold braids.

Caps

Although there is an exception, rarely seen, for women that allows them to wear a soft cap, the mortarboard or Oxford-type cap is worn. Only the doctor's cap may be made of velvet. The tassel worn with the cap has three variations: (1) it may be black for any degree, (2) it may be in the color of the faculty (field of learning) in which the degree was granted, or (3) doctors and governing officials, only, may wear a tassel of gold metallic thread. Black tassels are worn at USC for all bachelor's and master's degrees.

The cap is an essential part of the academic costume and is worn with it at all times except, of course, when the men remove theirs during prayer or during the playing of the national anthem. The gold tassel of the doctor's cap is so fastened that it drapes over the left front quarter of the cap. From this design, it has become customary to leave the tassel draped over the left temple at all times.

Hoods

Of all the components of the costume, the hood is the most symbolic. It makes clear the level of the degree, the faculty in which it was given and the institution which awarded it. The level of the degree is shown by the size of the hood, the width of the velvet trimming, and in the case of the doctors, by the shape. The hood is lined with the colors of the school awarding the degree; at USC, the silk lining is gold with a cardinal chevron. The color of the velvet band around the hood shows the department in which the wearer has taken his or her degree. All master of arts (white) and master of science (gold) degrees are bestowed by the Graduate School. The color of the velvet band around the hood for all PhDs is dark blue. Specialty degrees have individual colors based on the degree earned.

The academic regalia worn by the participants in the commencement ceremony is not merely costume. It represents an unbroken chain uniting students and scholars since the Middle Ages.

Presidential Medallion of Office

The medallion of office is worn by the president over his official regalia at ceremonial occasions. It was created by Associate Provost Jerome B. Walker for the inauguration of President James H. Zumberge on May 10, 1981 to serve as a tangible symbol of the authority vested in the president by the Board of Trustees. For his 1991 inauguration, President Steven B. Sample asked Dr. Walker to design the medallion's current chain, which consists of shields identical to that found in the university seal, linked together 16 times.

The front of the medallion depicts the university seal in full, and the back lists the name of the current president and the date of his inauguration. Each president keeps his medallion after retirement. For his 2010 inauguration, Dr. C. L. Max Nikias directed that two copies of the medallion be created. One copy will be worn by the president at appropriate events, while the other will be displayed in the Office of the President. The displayed medallion will include the name of each of the past presidents of USC engraved on the links of its chain.

University Mace

The mace is a ceremonial scepter symbolizing the authority of the Office of the President. The president of the faculty has the honor of serving as mace bearer in all academic processions for commencements and other official university ceremonies.

The university mace was first used at the inauguration of President Norman Topping on October 28, 1958. The mace was designed and crafted by the renowned master silversmith, USC alumnus and professor emeritus Hudson Roysher. The head of the mace depicts the university seal. Encircling the head of the mace is the hand-engraved inscription, "1880 University of Southern California." The names of the university's past presidents and the current president are engraved on the bowl. The crowning ornament is a depiction of the walled city of Troy. The mace is permanently displayed in the Office of the President.

Marshals' Batons

Designed for the inauguration of Dr. C. L. Max Nikias as 11th president of the university, a baton is carried by every marshal in the official procession. The batons are carved from walnut, with the university seal mounted in gold at the top. The fluted shape of the baton evokes the torch of learning, which is also found on the university seal.

At the University of Southern California, marshals are traditionally chosen from the ranks of the faculty to lead the student procession at the New Student Convocation and Commencement. The university marshal and the president of the faculty march at the head of the procession.

Trustee Gowns

The cardinal robes of office worn by university trustees were designed by Dr. Jerome B. Walker for President James H. Zumberge's 1981 inauguration. Reminiscent of the university's doctoral gowns, the trustee robes feature red velvet front panels and chevrons on the sleeves. Bright gold piping outlines both the panels and the chevrons. Each of the front panels features an embroidered shield on the lapel, taken from the university seal. The trustees wear a doctoral hood lined with USC's traditional gold satin with a cardinal chevron. The hood has a red velvet collar representing the university, in place of a faculty color representing a single discipline.

The university marshal wears a special gown that serves as a bridge between the trustee robes and the university's doctoral gown, with the university seal embroidered on the lapel.

ACADEMIC SYMBOLS OF THE UNIVERSITY

Original University Seal
The university's original seal was developed in 1884 to emboss the diplomas of the school's first graduating class. This seal depicted the year of USC's founding (1880) emblazoned on a scroll next to a palm tree (in heraldry, a symbol of righteousness and victory), with the name of the institution inscribed around the border.

1908 Seal
At the behest of university administrators in 1908, Jesse Ray Miller devised a new seal that introduced USC's official flower, the California poppy, a heraldic symbol of remembrance, hope, joy and growth. The seal also included a shield bearing a setting sun and three torches. In heraldic tradition, the torch symbolizes learning, and the three torches displayed here represented learning in the arts, the sciences and philosophy. The setting sun signified the West, and according to heraldic symbolism, power and life. Finally, enfolding the shield was a scroll displaying the university's new motto, "Palmam Qui Meruit Ferat." Freely translated, it means: "Let him bear the palm who merits it."

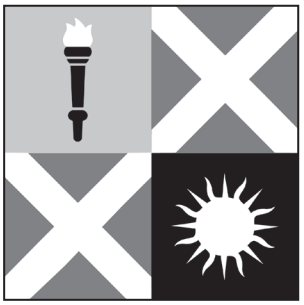
Current Seal of the University of Southern California
In 1948, the USC Board of Trustees approved an updated version of the university seal. In this version, the poppies appear next to the shield inside the outer band, which is now formatted as a scroll. The Latin motto is inscribed on a separate scroll at the base of the seal. This seal continues to be the imprimatur, or official signature, of USC to this day.

HERALDIC FLAGS

Originally designed by Dr. Jerome B. Walker for President James H. Zumberge's 1981 inauguration, heraldic flags for each academic degree-granting unit are displayed at commencements and other academic convocations. These flags, carried by students, precede the faculty in the procession. By a long-standing tradition, most academic disciplines have used an identifying color, which is displayed on academic hoods to indicate the subject area in which the wearer obtained the degree. These identifying academic colors are used in the banners of the various schools and divisions of the university.

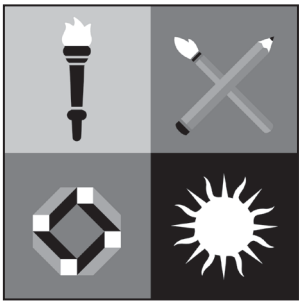
Found in the university seal, the torch of knowledge is a clear and honorable symbol, well suited to an institution of higher learning, and is one of the charges on the university's official seal. The university seal also contains a sun. Known as a "sun in its splendor," it has a perimeter featuring alternating straight and wavy rays. The straight rays represent the light and the wavy rays the warmth and affection that the university extends to its students and community. The torch and the sun are used to unite these disciplines under the flag of the University of Southern California.

College of Letters, Arts and Sciences
Academic colors: white for letters, gold for sciences. The wide-ranging fields over which this college functions are symbolized by the intimate intertwining of letters, arts and sciences in the heraldic pattern known as "gyronny." The torch of knowledge serves as a reminder that the college is the academic heart of the university.

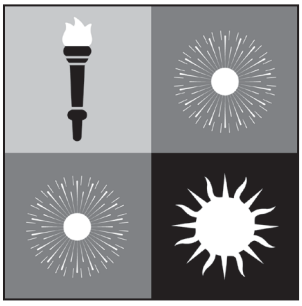


The Graduate School
Academic color: white for arts, gold for sciences, royal blue for the doctorate. In heraldry, the saltire (a corner-to-corner cross) symbolizes the very wide range of disciplines over which this school presides and which the saltire unites in one unit.

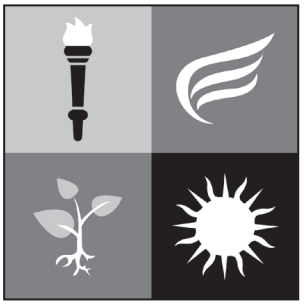
Architecture
Academic color: blue-violet. The Doric portico is used here as a symbol of beauty and proportions inspired by the early Greek architects, who continue to inspire the architect today. The modern bridge represents progress, connections and stability. The blue background, representing the sky, suggests the almost limitless scope of architecture.



Art and Design
Academic colors: brown for arts, white for letters. Here the symbols reflect two important branches of art and design. The paintbrush and pencil symbolize fine arts such as painting, drawing and sculpture. The abstract symbol, with its pixel-like design, reflects the emergence and evolution of digital arts.

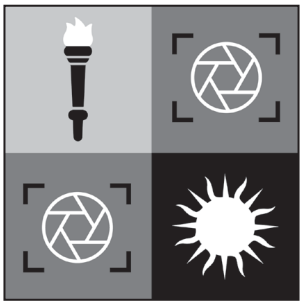


Arts, Technology and the Business of Innovation
Academic color: brown. The supernova, an astronomical event that occurs during stellar evolution causing the sudden appearance of a new, brighter star, represents the idea of disruption and the supreme energy exhibited by the founders and students of the academy. The flag's additional colors are described in heraldic language as metals: gold and bronze.

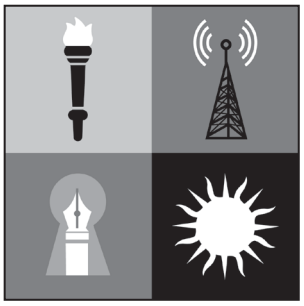


Bovard College
Academic color: white. The soaring sails symbolize confidence and agility in providing a student-centered approach to learning. The rooted plant is a symbol of the stability, growth and abundance of opportunity. Colors featured in the flag are rendered as metals—gold, silver and bronze—in traditional heraldic terms.

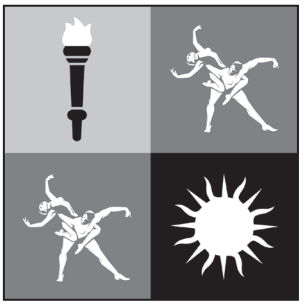
Business
Academic color: drab. The square figures that are symmetrically arranged on this flag are designed to symbolize the organizational characteristics of business in all its complexity. The interconnected sphere represents an enterprising and global approach to business.



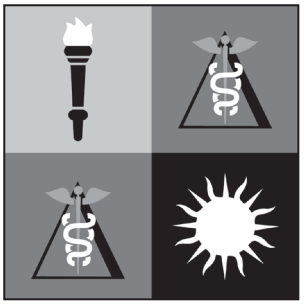
Cinematic Arts
Academic colors: brown for arts, white for letters. The six triangles represent the strength of the individual specialties, such as camera, editing, sound, writing, criticism and aesthetics, that form the larger discipline of cinematic arts. When combined, they form an aperture, at the center of which is the human eye, representing the mediation essential to the discipline.



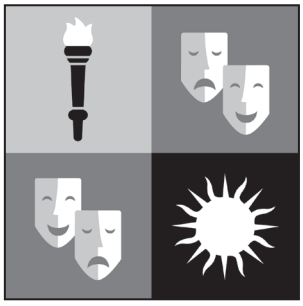
Communication and Journalism
Academic colors: crimson for communication, white for journalism. The three data waves emanating from the transmitter in both directions symbolize the fact that all communication has a threefold aspect—communicator, audience and medium—all of which are involved in the interplay and sharing of a message. The quill tip within the keyhole represents freedom of the press.



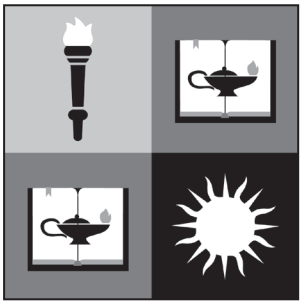
Dance
Academic color: amethyst. Dance is one of the oldest and most central expressions of humanity. The two interlocking figures represent creativity and innovation, and they capture the artistry of bodies in motion. The sun in its splendor represents the courage and power incumbent in authentic artistic creation, and white is the traditional heraldic color representing the arts and humanities.



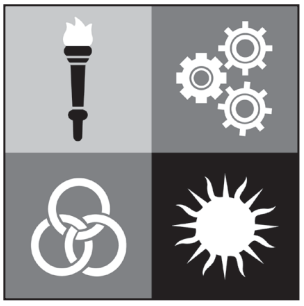
Dentistry
Academic color: lilac. Dentistry, like the other scholarly areas associated with health care, uses the traditional Asclepian staff and serpent—in this case, enclosed in a capital Greek letter, delta, an homage to the official emblem of dentistry.



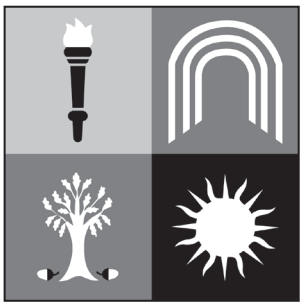
Dramatic Arts
Academic colors: brown for arts, white for letters. The classic emblem of comedy and tragedy is based on masks worn by actors in ancient Greek theater productions. They reflect not only the two main genres of the dramatic arts, but also the duality of the human experience.



Education
Academic color: light blue. The book, illuminated by the lamp of learning, is a very widely used, traditional symbol for education, and occurs in many shields of arms. The flame from the torch of knowledge illuminates the tip of the lamp.

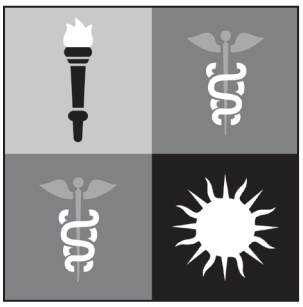


Engineering
Academic color: orange. The interlinked circles, inspired by the classic mathematical Borromean rings, join the cogs and gears in this flag to symbolize the way in which the profession of engineering interacts with math and the applied sciences to solve society's most pressing and wicked problems.

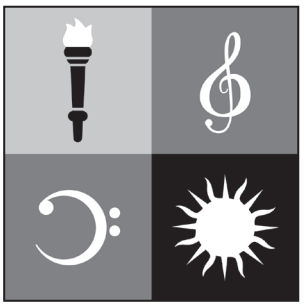


Gerontology
Academic color: white. The very characteristic architecture of this school is incorporated in the flag, along with the oak tree, symbolizing sturdiness and longevity, and acorns, representing the constant renewal of life.

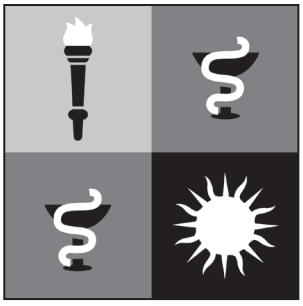
Law
Academic color: purple. The four points surrounding the gavel in this flag symbolize the levels at which the legal profession provides a bulwark and framework for our society: federal, state, county and local. The scales of justice reflect the fair and impartial balance sought by the law.



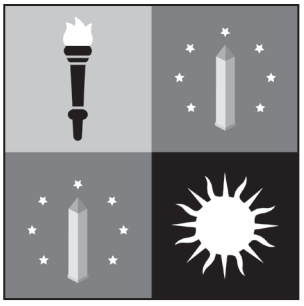
Medicine
Academic color: green. The staff of Asclepius, the Greek god of medicine, around which is entwined the harmless snake beloved of Asclepius, has been the symbol of medicine for many centuries.



Music
Academic color: pink. Music is a universal means of communication between human beings, linking the past, present and future. The treble and bass clefs symbolize music expressed in all its forms and styles, vocal or instrumental.



Pharmacy
Academic color: olive. Pharmacy is symbolized by the bowl of Hygeia, the Greek goddess of health, coupled with the Asclepian serpent, showing the intrinsic relationship between pharmacy and medicine.

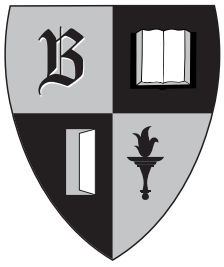


Public Policy
Academic color: peacock blue. The school's work is represented in triads, reflecting the intersection of three sectors, three levels of government, three locations and three levels of degree programs. The three shapes that come together to form the obelisk evoke those triads. The symbol of the obelisk surrounded by stars reflects structure, security and liberty.

Social Work
Academic color: citron. As symbolized by outstretched hands cradling the globe, social work by its very nature is about embracing our connections as human beings and inspiring the spirit of compassion and mutual respect that assists individuals and communities in reaching their full potential.

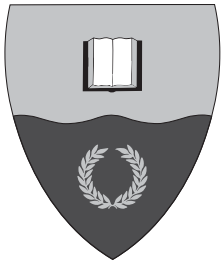
RESIDENTIAL COLLEGES

The University of Southern California transformed its housing for freshmen into residential colleges in 2012, bringing special cultural programming, academic opportunities and mentoring from faculty members to many more students. Along with this shift, the university unveiled official crests to represent each of these new colleges. Some echo the history of the university and its architecture, whereas others evoke the emerging themes of these new communities. All 14 crests are anchored in USC's identity, echoing elements from the university's official seal and embracing cardinal and gold as their dominant tones.

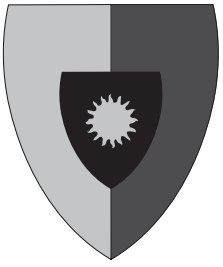


Birnkrant
Dubbed "seven floors of open doors" for its social atmosphere, this college currently houses freshmen who are Trustee, Presidential and Mork Family scholars. The crest features a "B" for Birnkrant, the torch of knowledge, a book and an open door.

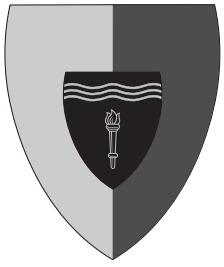
Bohnett
A community built around a core ideal of social action through entrepreneurship, this college embraces students seeking innovative solutions to social issues around the world. The torch of knowledge is framed by a chevron, a classic symbol of dutiful and benevolent service.



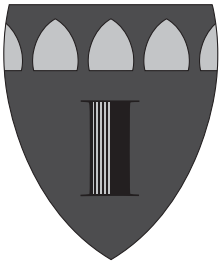
Cale
Home to scholars interested in global exploration, this community encourages cross-cultural interaction and critical dialogue regarding the ever-changing international landscape. Its symbols, the book and the wreath, reflect the exchange of ideas and triumph of humanity.



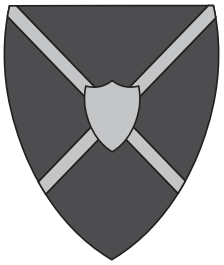
Cowlings
This college has arts and cultures as its thematic focus, with an emphasis on the wealth of cultural experiences at USC and throughout Los Angeles. Residents are inspired to awaken their inner cultural explorer, reflected by the sun in its splendor contained within the crest.



Ilium
A community for sophomore honors students, this college brings together scholars who share a commitment to rigorous intellectual and academic achievement. Its crest emphasizes the torch of knowledge, a classic symbol that has been part of the university's graphic identity since its inception.

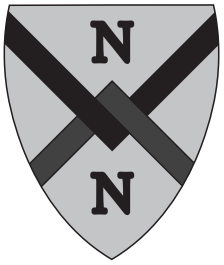


Irani
This college focuses on performance science; students living in this community explore their untapped potential in learning how to break down barriers inhibiting leadership, decision-making, resilience or creativity. The pillar reflects stability and strength of character, and the windows along the upper portion of the crest echo architectural details at USC Village.

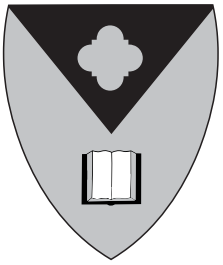


McCarthy Honors
Endowed by the Thomas and Dorothy Leavey Foundation, this college provides a home for exceptional scholars. The crest's design is inspired by McCarthy Quad, which was named in honor of Leavey Foundation Chair Kathleen Leavey McCarthy '57.

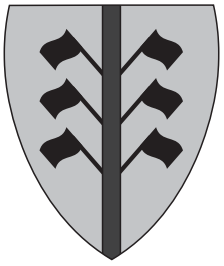
Nemirovsky
This college is home to students dedicated to sustainability and societal engagement. Its crest features the poppy, a symbol of growth and hope featured in the university seal, and pillars and a cornerstone, evoking the foundation of something lasting and monumental.



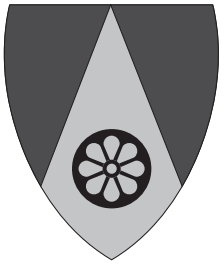
New North
This college is a hub of activity and combines two closely connected buildings. The crest's interlocking angles, a classic heraldic shape, symbolize a collaborative environment.



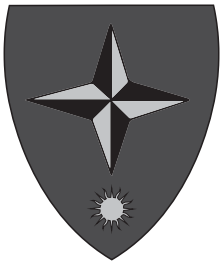
Parkside Arts and Humanities
This creative community is home to students of music, art and literature. It's known for its performance and practice spaces. The crest draws from the surrounding landscape of Mudd Hall and Hahn and Nazarian plazas.



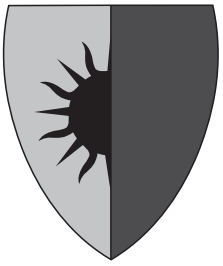
Parkside International
Global issues are a focus for this community, which includes many students from other nations. A display of flags on the crest represents the international traditions celebrated at the college.



Priam
This community is a bastion of innovation, encouraging scholars to embrace their passions for technology, science and design. Residents seek solutions to global challenges through creativity and novelty, a spirit emphasized in the crest's playful symbol.



South
Home to residents with a passion for social change, this community is represented by a compass rose, signifying exploration. The college includes residents of Marks and Trojan halls and Pardee and Marks towers.



West
West comprises two neighboring towers, Webb and Fluor. The college's crest shows two adjoining colors, with the sun setting to the west.

Candidates for Degrees and Certificates

December 18, 2019 / May 15, 2020 / August 11, 2020
The University of Southern California has one commencement ceremony per year and provides a program listing all eligible candidates for that year. Only candidates who are eligible for graduation during the semesters listed above are published in the May commencement program.

Joshua Zepeda, B.A., University of Southern California

Doctor of Philosophy

Niloufar Abolfathian, Geological Sciences, B.S., Sharif University of Technology, Iran; M.S., Eidgenossische Technische Hoschschule, Switzerland
Dissertation: Spatiotemporal Variations of Stress and Strain Parameters in the San Jacinto Fault Zone and South Central Transverse Ranges

Arely Lizeth Acuna Avilez, Urban Education Policy, B.A., University of California, Irvine; M.Ed., University of California, Los Angeles
Dissertation: Undocumented Student Organizations: Navigating the Sociopolitical Context in Higher Education

Kanika Aggarwal, Economics, B.Equiv., University of Delhi, India; M.A., University of Delhi, India

Zahaib Akhtar, Computer Science, B.Engr., M.Engr., Lahore University of Management Sciences, Pakistan; M.S., University of Southern California
Dissertation: Improving Systems for Internet Video Delivery

Komathi Ale-Valencia, Communication, B.A., M.A., Nanyang Technological University, Singapore; M.A., University of Southern California
Dissertation: Examining the Role of Internal Communication Practices for the Enhancement of Motivations to Use ICTs in Instruction: A Case Study of Teachers in Peruvian Secondary Schools

Abdullah Mohammad Abdullah Alfarrarjeh, Computer Science, B.S., Jordan University of Science and Technology; M.S., University of Southern California
Dissertation: Enabling Spatial-Visual Search for Geospatial Image Databases

Marquerita Algorri, Clinical and Experimental Therapeutics, B.A./B.S., Drexel University
Dissertation: Antibiotic Immunomodulator in Staphylococcus aureus Bloodstream Infection

Taylor Nicole Allbright, Urban Education Policy, B.A., University of California, Berkeley; M.A., Mills College
Dissertation: Implementing District Policies for Racial Equity

Jasmin Marie Alves, Medical Biology, B.S., Westminster College of Salt Lake City

Abdulla Mohammed A Alwabel, Computer Science, B.S., King Saud University, Saudi Arabia; M.S., University of Southern California
Dissertation: Enabling Symbolic Execution String Comparison during Code-Analysis of Malicious Binaries

Therese Anders, Political Science and International Relations, B.A., M.A., Freie Universitat Berlin, Germany; M.A., University of Southern California
Dissertation: Perspectives on the Political Geography of Conflict

Emily Rose Anderson, Art History, B.A., Tufts University; Grad.Cert., University of Southern California; M.A., Southern Methodist University; M.A., University of Southern California
Dissertation: The Bespoke Book: Experimental Printing in Early Modern Italy

Yuta Ando, Biomedical Engineering, B.A., University of Virginia

Chelsea Diane Appleget, Aerospace Engineering, B.S., Auburn University; M.S., University of Southern California

Calvin Satiawan Ardi, Computer Science, B.S., University of California, Berkeley
Dissertation: Improving Network Security through Collaborative Sharing

Katie Erin Ardill, Geological Sciences, B.S., University of Durham, United Kingdom
Dissertation: Spatial and Temporal Evolution of Magmatic Systems in Continental Arcs

Juan Enrique Arguelles Morales, Biomedical Engineering, B.Engr., National Autonomous University of Mexico
Dissertation: Assessing Neural Patterns of Motor Basal Ganglia and Motor Thalamus through Chronic Multielectrode Recordings in Awake Children with Acquired Dystonia

Christopher John Armoskus, Biostatistics, B.A., University of Chicago

Julian Levart Aronowitz, Applied Mathematics, B.A., Hamilton College; M.A., University of Southern California
Dissertation: Finite Sample Bounds in Group Sequential Analysis via Stein's Method

Ashrant Aryal, Civil Engineering, B.S., Technion-Israel Institute of Technology, Israel; M.S., University of Southern California
Dissertation: Intelligent Agents for Personalizing Indoor Environment and Improving Occupant Comfort in Offices

Hadi Aryan, Civil Engineering, B.Engr., Bu-Ali Sina University, Iran; M.Engr., University of Tehran, Iran
Dissertation: Influence of Alkali-Silica Reactivity Damage on the Shear Behavior of Reinforced Concrete Beams

Azar Asadi Shahmirzadi, Biology of Aging, B.S., Tehran University of Medical Sciences, Iran

Doctor of Philosophy (continued)

James Arthur Askew, Integrative and Evolutionary Biology, B.S., University of Plymouth, United Kingdom; M.S., University of Exeter, United Kingdom
Dissertation: Geographic Variation in Orangutan Behavioral Ecology and the Function of the Long Call in Mediating Social and Reproductive Relationships

Snir Attia, Geological Sciences, B.A., University of Colorado Boulder

Adam Badawy Badawy, Political Science and International Relations, B.A., University of California, Los Angeles; M.A., George Washington University
Dissertation: Analysis and Prediction of Malicious Users on Online Social Networks: Applications of Machine Learning and Network Analysis in Social Science

Joel Antunez Bahena, Mechanical Engineering, B.S., University of California, San Diego; M.S., University of Southern California

Sara Elizabeth Bakerman, Cinematic Arts, B.A., New York University; M.A., University of Southern California
Dissertation: Archived Legacies: Aging, Female Stars and Hollywood Nostalgia, 1967-1994

Trambak Banerjee, Business Administration, B.Equiv., Indian Statistical Institute
Dissertation: Shrinkage Methods for Big and Complex Data Analysis

Rucha Arun Bapat, Craniofacial Biology, B.D.S., Dr. D. Y. Patil Medical College, India; M.S., University of Southern California
Dissertation: Amelogenin-Ameloblastin Protein Interaction and Function in Dental Enamel Formation

Victor Ramon Barradas Patino, Biomedical Engineering, B.S., National Autonomous University of Mexico; M.S., University of Southern California

Lindsay Elizabeth Bassman, Physics, B.S., University of Chicago
Dissertation: Controlling Electronic Properties of Two-Dimensional Quantum Materials: Simulation at the Nexus of the Classical and Quantum Computing Eras

Amanda Faith Baxter, Chemistry, B.S., McPherson College

Joseph Cline Bebel, Computer Science, B.S., M.S., University of Southern California
Dissertation: The Complexity of Functions

Pooyan Behnamghader, Computer Science, B.S., University of Tehran, Iran; M.S., University of Southern California
Dissertation: Software Quality Understanding by Analysis of Abundant Data

William Anthony Bezouska, Astronautical Engineering, B.S., University of Notre Dame; M.S., University of Southern California

Dhritiman Bhattacharyya, Chemistry, M.S., Indian Institute of Technology – Kanpur, India

Thomas Joseph Billard, Communication, B.A., George Washington University; M.A., University of Southern California
Dissertation: Voices for Trans Equality: Communicative Activism at the National Center for Transgender Equality

Clayton Scott Bingham, Biomedical Engineering, B.S., Utah State University; M.S., University of Southern California
Dissertation: Simulating Electrical Stimulation and Recording in a Multi-Scale Model of the Hippocampus

Caroline Black, Chemistry, B.S., Wake Forest University

Dexter Lamar Booth, Literature and Creative Writing, B.F.A., Virginia Commonwealth University; M.F.A., Arizona State University
Dissertation: The Flying _____: Trauma, Death, Storytelling and Epigenetic Memory in African Americans

Jessica Debra Brier, Art History, B.A., New York University; M.A., California College of the Arts; M.A., University of Southern California
Dissertation: Typophoto and the Reinvention of Photography in Weimar Germany

Emily Claire Brown, Classics, B.A., M.A., University of British Columbia, Canada; M.A., University of Southern California

Niquelle Terae Brown, Epidemiology, B.S., M.S., Georgia Institute of Technology

Paul Bruno, Urban Education Policy, B.A./B.S., M.A., University of California, Berkeley
Dissertation: Loaded Questions: The Measurement, Causes, and Consequences of Teacher Salary Schedule Frontloading

Ahmed Khaled Bubshait, Petroleum Engineering, B.S., King Fahd University of Petroleum and Minerals, Saudi Arabia; Grad.Cert., M.S., University of Southern California
Dissertation: Fracture Modeling Coupled with Multiphase Flow and Geomechanics in Fractured Formations

Ariel Alejandro Calderon, Mechanical Engineering, B.Engr., University of Chile; M.S., University of Southern California

James David Campbell, Electrical Engineering, B.S., Harvey Mudd College; M.S., California State Polytechnic University, Pomona
Dissertation: Electromagnetic Scattering Models for Satellite Remote Sensing of Soil Moisture Using Reflectometry from Microwave Signals of Opportunity

Shauna Elisabeth Campbell, Urban Education Policy, B.A., Harvard University; M.S., University of Pennsylvania
Dissertation: Disruptions to the Traditional Textbook Adoption Cycle

Jisu Cao, Economics, B.A., University of Wisconsin – Madison

Yu Cao, Economics, B.A., Zhejiang Gongshang University, China

Lucas Mark Carden, Psychology, B.A., University of Kentucky; M.S., University of Southern California
Dissertation: Overcoming Boredom on the Road the Habit Formation

Doctor of Philosophy (continued)

Omri M. Ceren, Communication, B.S., B.A., University of Pittsburgh; M.A., University of Southern California
Dissertation: A Question of Identity: The Rhetoric and Argument of Conspiracy Theories

Yaqiong Chai, Biomedical Engineering, B.Engr., Beihang University, China; M.Engr., Chinese Academy of Sciences, China; M.S., University of Southern California

Feng-Ju Chang, Electrical Engineering, B.S., National Cheng Kung University, Taiwan; M.S., National Taiwan University
Dissertation: Landmark-free 3D Face Modeling for Facial Analysis and Synthesis

Longlong Chang, Aerospace Engineering, B.Engr., M.Engr., Beihang University, China; M.S., University of Southern California
Dissertation: Dynamic Modeling and Simulation of Flapping-Wing Micro Air Vehicles

Rui Chao, Electrical Engineering, B.Engr., Tsinghua University, China
Dissertation: Flag the Faults for Efficient Quantum Computation

Chien-Lun Chen, Electrical Engineering, B.S., National Tsing Hua University, Taiwan; M.S., National Taiwan University
Dissertation: Security and Privacy in Information Processing

Fenxiao Chen, Computer Engineering, B.S., Harvey Mudd College; M.S., M.S., University of Southern California
Dissertation: Graph Learning with Machine Learning Techniques

Jiachuan Chen, Industrial and Systems Engineering, B.S., University of Illinois at Urbana-Champaign; M.S., University of Southern California
Dissertation: The Warehouse Traveling Salesman Problem and Its Application

Jihan Chen, Electrical Engineering, B.Engr., Tianjin University, China; M.S., University of Southern California
Dissertation: Optoelectronic, Thermoelectric, and Photocatalytic Properties of Low Dimensional Materials

Jingyu Chen, Molecular Pharmacology and Toxicology, B.Engr., China Agricultural University; M.S., University of Southern California
Dissertation: Periportal Hepatocytes Expressing SOX9 Contribute to Liver Cancer Development Following Injury

Li-Ping Chen, Comparative Studies in Literature and Culture, B.A., M.A., National Taiwan Normal University
Dissertation: (Alter)native Soil: Cultural Identity and National Consciousness in Transnational Taiwan Literature

Meida Chen, Civil Engineering, B.S., University of Toledo; M.C.M., M.S., University of Southern California
Dissertation: Semantic Modeling of Outdoor Scenes for the Creation of Virtual Environments and Simulations

Mo Chen, Engineering, B.S., M.S., Peking University, China
Dissertation: Investigating the Role of Climate in Affecting Residential Electricity Consumption through High Spatiotemporal Resolution Observations

Richard H. Chen, Electrical Engineering, B.S., National Taiwan University
Dissertation: Radar Remote Sensing of Permafrost Landscapes and Active Layer Soil Properties

Weiyi Chen, Electrical Engineering, B.S., Beijing Institute of Technology, China; M.S., M.S., University of Southern California
Dissertation: Functional Real-time MRI of the Upper Airway

Xianhui Chen, Pharmaceutical Sciences, B.S., Peking University, China; Grad.Cert., University of Southern California
Dissertation: Engineered Chimeric Antigen Receptor (CAR) Modified Immune Cells for Enhanced Solid Tumor Treatment

Ying Chen, Mechanical Engineering, B.S., Beihang University, China; M.S., University of Southern California
Dissertation: Synthesis and Analysis of High Performance Controllers for High-Speed Aerobatic Flight

Yueru Chen, Electrical Engineering, B.S., University of Science and Technology of China; M.A., University of Southern California
Dissertation: Object Classification Based on Neural-Network-Inspired Image Transforms

Bingran Cheng, Biology, B.S., Xiamen University, China

Christine Cheng, Chemical Engineering, B.S., California Institute of Technology; M.S., University of Southern California
Dissertation: Scale-up of Vapor-Phase Deposition of Polymers: Towards Large Scale Processing

Huimei Cheng, Electrical Engineering, B.Engr., Nanjing University of Information Science and Technology, China; M.S., University of Southern California
Dissertation: Automatic Conversion from Flip-Flop to 3-Phase Latch-Based Designs

Jonathan Andrew Cheung, Neuroscience, B.S., University of California, San Diego
Dissertation: The Behavioral and Neural Bases of Tactile Object Localization

Winston Edward Chi, Urban Education Policy, B.S., Stanford University; M.A., University of California, Irvine
Dissertation: Policy and Program Evaluations in K-12 and Higher Education

Nathan Cho, Biomedical Engineering, B.S., University of California, Los Angeles; M.S., University of Southern California

Sang Kyu Cho, Health Economics, M.P.H., Columbia University; Pharm.D., St. John's University

Hyungwoo Choi, Chemical Engineering, B.S., M.S., Hanyang University, South Korea
Dissertation: Non-Linear Optical Phenomena in Silica Hybrid Toroidal Microcavities

Xiaolin Chou, Neuroscience, B.S., Fudan University, China
Dissertation: Neural Circuits Underlying Modulation and Impact of Defensive Behaviors

Doctor of Philosophy (continued)

Saket Kumar Choudhary, Computational Biology and Bioinformatics, B.Tech., M.Tech., Indian Institute of Technology – Bombay/Powai, India; M.S., M.S., University of Southern California

Nathan Daniel Churches, Molecular Biology, B.S., University of Washington

Liron Cohen, Computer Science, B.S., Hebrew University of Jerusalem, Israel
Dissertation: Efficient Bounded-Suboptimal Multi-Agent Path Finding and Motion Planning via Improvements to Focal Search

Christopher Ansel Conow, Computational Biology and Bioinformatics, B.S., California State Polytechnic University, Pomona
Dissertation: Utilizing a Virtual Population of Sexually Reproducing Organisms to Explore the Evolution of Complex Traits

Humberto Contreras Trujillo, Development, Stem Cells and Regenerative Medicine, B.S., Humboldt State University

Kristopher Coombs Jr., Political Science and International Relations, B.A., M.A., M.A., Tufts University
Dissertation: Political Participation, Public Opinion and the Law

Alli Suzanne Coritz, Sociology, B.A., Arizona State University; M.A., University of Southern California

Maury Alex Courtland, Linguistics, B.A., Haverford College; M.A., M.S., University of Southern California

Courtney Michelle Cox, Communication, B.A., M.A., University of Texas at Austin; M.A., University of Southern California
Dissertation: "The Way We Ball": Global Crossovers Within the Hoops Habitus

Hailong Cui, Business Administration, B.S., Pohang University of Science and Technology, South Korea; M.S., Arizona State University
Dissertation: Essays on Consumer Returns in Online Retail and Sustainable Operations

Jennifer Kyung-jin D'Angelo, Business Administration, B.S., University of Southern California
Dissertation: Consumer Choices in Customization

Pedro Henrique Gomes Da Silva, Electrical Engineering, B.Engr., M.S., Universidade Estadual de Campinas, Brazil; M.S., University of Southern California
Dissertation: Exploiting Diversity with Online Learning in the Internet of Things

Kushan Dasgupta, Sociology, B.A./B.S., University of Texas at Austin
Dissertation: Labor, Economic Culture, and Civic-State Interaction: Making Local Minimum Wage Policy in Southern California

Mohit Narendra Dave, Development, Stem Cells and Regenerative Medicine, B.Engr., University of Mumbai, India; M.Engr., Birla Institute of Technology and Science, India

Maria Soledad De Gregorio Aninat, Public Policy and Management, M.P.P., University of California, Los Angeles
Dissertation: Policies and Tools to Improve Student Outcomes: Examining Alternative Pathways into Teaching, Classroom Observation Instruments, and Student Homelessness

Nonny Anna Maria de la Pena, Cinematic Arts, B.A., Harvard University; M.C.M., University of Southern California
Dissertation: Inventing Immersive Journalism: Embodiment, Realism and Presence in Nonfiction

Mark Miguel De Luna, Chemical Engineering, B.S., Columbia University
Dissertation: Functional and Complex Materials via Vapor Phase Deposition Processes

Tyler William DeGroot, Business Administration, B.S., California Lutheran University; M.B.T., University of Southern California
Dissertation: Tax Planning and Tax-Related Litigation: Evidence from United States Tax Court

Ashok Kumar Deb, Computer Science, B.S., United States Military Academy; M.B.A., University of Phoenix; M.S., Georgia Institute of Technology
Dissertation: Modeling Information Diffusion with Impressionable and Conforming Dynamics in a Game-Theoretic, Adversarial Framework

Angelica Delgado Rendon, Preventive Medicine, B.S., University of Wisconsin – Madison

Huiyu Deng, Biostatistics, B.A., University of Wisconsin – Madison; M.A., University of California, Santa Barbara

Weiran Deng, Economics, B.A., M.S., Hong Kong University of Science and Technology

Sourya Dey, Electrical Engineering, B.Engr., Indian Institute of Technology – Kharagpur, India
Dissertation: Exploring Complexity Reduction in Deep Learning

Golnaz Dianat, Chemical Engineering, B.Engr., Eastern Mediterranean University, Turkey
Dissertation: Fabrication of Functional Porous Membranes via Polymerization of Solid Monomer by a Vapor-phase Initiator

Millan Fernando Diaz-Aguado, Astronautical Engineering, B.S., M.S., University of Texas at Austin

Lisa Beth Dokovna, Neuroscience, B.A./B.S., University of Delaware
Dissertation: Addicted to Androgens: Consequences for Cognition and Behavior

Hilary Michelle Dorton, Neuroscience, B.A., Auburn University
Dissertation: Effects of Sugar and Non-nutritive Sweetener Consumption on Neural Processing, Ingestive Behavior, and Appetite Regulation

Daniel Charles Douglas, Mathematics, B.A., Northwestern University
Dissertation: Classical and Quantum Traces Coming from SL_n(C) and U_q(sl_n)

Doctor of Philosophy (continued)

Mitchell Curtis Dreiske, Electrical Engineering, B.S., University of Illinois at Urbana-Champaign
Dissertation: Selective Area Growth and Coalescence of InP Nanostripes on Silicon for 1.55 um Photonic Integration

Zhaohui Du, Epidemiology, B.S., M.P.H., Shandong University, China

David Brooks Ebner, Political Science and International Relations, B.A., Manhattan College
Dissertation: Politics Is Something We Do Together: Identity and Institutions in U.S. Elections

Christoph Achilleas Efstathiou, Aerospace Engineering, B.S., M.S., University of Southern California

Rebecca Ehrhardt, English, B.A., Columbia University
Dissertation: Referential Fictions: Character and Language in Nineteenth-Century British Literature

Amr Youssef Fathy Youssef Elnakeeb, Electrical Engineering, B.S., Cairo University, Egypt
Dissertation: Exploitation of Sparse and Low-rank Structures for Tracking and Channel Estimation

Sahar Elyahoodayan, Biomedical Engineering, B.S., M.S., University of Southern California

Temuulen Enebish, Epidemiology, B.Equiv., Mongolian National University of Medical Sciences, Mongolia; M.P.H., University of South Carolina

Zitadel Anne Esguerra, Cancer Biology and Genomics, B.S., B.S., Mount Saint Mary's University

Aslan Etminan, Electrical Engineering, B.S., Sharif University of Technology, Iran; M.S., Bilkent University, Turkey
Dissertation: Solution of Inverse Scattering Problems via Hybrid Global and Local Optimization

Olivia Leigh Evanson, Industrial and Systems Engineering, B.S., University of Minnesota, Twin Cities; M.S., University of Southern California

Josephine Yen Fang, Craniofacial Biology, B.S., National Chiayi University, Taiwan; M.S., University of Southern California
Dissertation: Biomaterial Induced Multinucleated Cells: Fusion, Activation, and Functions

Fatemeh Farahi Bouzanjani, Cinematic Arts, B.Arch., Islamic Azad University, Iran; M.Arch., University of Southern California
Dissertation: Emotive Matter in Interactive Media, Architecture & Fashion

Lucia Isabella Florindez, Occupational Science, B.A., M.C.M., University of Southern California
Dissertation: A Mixed-Methods Exploration of Oral Health Beliefs and Practices among Latino Families with Typically Developing Children or Children with Autism

Dissertation: Three Essays on Urban Formalization and the Sharing Economy

Debarghya Sarkar, Electrical Engineering, B.Engr., Jadavpur University, India; M.S., University of Southern California
Dissertation: Building Blocks for Future 3D Integrated Circuits: Single Crystal Compound Semiconductor Growth and Devices on Amorphous Dielectrics

Pamela Schaff, Literature and Creative Writing, B.A., Pomona College
Dissertation: Crafting the Unspoken in The Wings of the Dove: Intersubjective Encounters and the "Case" of Milly Theale

Sarah Grace Katz Schechter, Chemical Engineering, B.S., University of Florida; M.S., University of Southern California
Dissertation: Fabrication and Analysis of Prepregs with Discontinuous Resin Patterning for Robust Out-of-Autoclave Manufacturing

Joshua Chase Schuschke, Urban Education Policy, B.S., M.A., University of Louisville
Dissertation: #RepresentationMatters: Constructing Black Academic Identities through Popular and Social Media

Nazli Senyuva, Communication, B.A., Princeton University; M.A., Columbia University; M.A., University of Southern California
Dissertation: First-Time Pregnant Women's Use of Information Sources: Ways to Improve the Choice between Vaginal and Cesarean Delivery

Sonia Jawaid Shaikh, Communication, B.A., University of Karachi, Pakistan; M.A., Michigan State University; M.A., University of Southern California
Dissertation: Bounded Technological Rationality: The Intersection Between Artificial Intelligence, Cognition, and Environment and its Effects on Decision-Making

Doctor of Philosophy (continued)

Mahrad Sharifvaghefi, Economics, B.S., University of Tehran, Iran; M.S., Sharif University of Technology, Iran; M.A., University of Southern California

Hiteshi Sharma, Electrical Engineering, B.S., LNM Institute of Information Technology, India; M.S., Indian Institute of Technology – Bombay/Powai, India
Dissertation: Reinforcement Learning with Generative Models for Non-parametrics MDPs

Jacqueline Beland Sheean, Comparative Studies in Literature and Culture, B.A., University of Oregon; Grad.Cert., University of Southern California

Si Shen, Mechanical Engineering, B.A., B.S., M.S., University of Southern California
Dissertation: Characteristics of Flames in Quasi-2D Channels: Propagation Rates and Scaling Parameters

Kaivalya Shantanu Shevade, Development, Stem Cells and Regenerative Medicine, B.S., University of Pune, India

Haotian Shi, Chemistry, B.Engr., Beijing University of Chemical Technology, China; M.S., M.S., University of Southern California

Xiaojing Shi, Pharmaceutical Sciences, B.S., Tsinghua University, China
Dissertation: Engineering Exosomes for Targeted Cancer Immunotherapy

Zhuofan Shi, Chemical Engineering, B.Engr., Hunan University, China; M.S., University of Southern California
Dissertation: Study on Transport and Mechanical Properties of Carbon Dioxide in Brine

Hai-Jung Shih, Biokinesiology, B.S., National Taiwan University

Yo Shih, Biokinesiology, B.S., National Taiwan University; M.S., National Taiwan Normal University

Bryan Eric Shilowich, Psychology, B.A., Tufts University; M.S., Brandeis University; M.A., University of Southern California
Dissertation: The Psychology and Psychophysics of Voice Recognition

Hyunju Shim, Gerontology, B.A., Pusan University – Foreign Studies, Korea; M.S.W., Washington University in St. Louis
Dissertation: Internet Communication Use, Psychological Functioning and Social Connectedness at Older Ages

Anna Shiriaeva, Chemistry, B.S., Lomonosov Moscow State University, Russia

Shaurya Shriyam, Mechanical Engineering, B.Engr., Indian Institute of Technology – Kanpur, India

Rosanne Amosovs Sia, American Studies and Ethnicity, B.A., M.A., University of British Columbia, Canada; M.A., University of Southern California
Dissertation: Fantasy in Motion: Performing Racial Imaginaries in the Early Cold War

Emily Ann Sidnam, Communication, B.A., Biola University; M.A., Purdue University; M.A., University of Southern California
Dissertation: Mobile Social Media and Problematic Distractions: Investigating Human and Technological Factors that Predict New Media Distraction Engagement and Consequences

Sarah Skillen, Comparative Studies in Literature and Culture, B.A., University of Notre Dame; M.A., University of Southern California
Dissertation: Errant Maternity: Threatening Femininity in Caribbean Discourses of Family, Nation, and Revolution

Ashley Yi Song, Epidemiology, B.S., University of California, San Diego; M.P.H., University of Southern California

Boxiang Song, Electrical Engineering, B.S., Nanjing University, China
Dissertation: Fabrication and Application of Plasmonic Nanostructures: A Story of Nano-Fingers

Yuhang Song, Electrical Engineering, B.Engr., Tsinghua University, China
Dissertation: Structured Visual Understanding and Generation

Tanner Sorensen, Linguistics, B.A., University of Nebraska, Lincoln; M.A., University of Southern California

Intira Sriprasert, Epidemiology, B.S., Chiang Mai University, Thailand

Ramunas Kestutis Stanciauskas, Molecular Biology, B.S., Loyola University Chicago
Dissertation: Spatial and Quantitative Mapping of Caveolin-1 Membrane Nanodomains and Their Functional Dynamic Response for Mechanosensing

Angelica Michelle Stoddard, History, B.A., University of California, Los Angeles; M.A., University of Southern California
Dissertation: Defining Worthiness: Veteran Mental Health Care in California, from Postwar Crisis to Deinstitutionalization, 1941-1967

Sy Stokes, Urban Education Policy, B.A., University of California, Los Angeles; M.S., University of Pennsylvania
Dissertation: Campus Racial Climate and the Trump Presidency

Georgios Styliaris, Physics, B.S., University of Athens, Greece
Dissertation: Coherence Generation, Incompatibility, and Symmetry in Quantum Processes

Shiyu Su, Electrical Engineering, B.Engr., Beijing University of Posts and Telecommunications, China; B.S., Queen Mary University of London, United Kingdom; M.S., University of Southern California
Dissertation: Digital to Radio Frequency Conversion Techniques

Andrea Natalie Suarez, Integrative and Evolutionary Biology, B.S., University of California, Riverside

Doctor of Philosophy (continued)

Guangrui Sun, Aerospace Engineering, B.Engr., Harbin Engineering University, China; M.S., M.S., University of Southern California
Dissertation: Large Eddy Simulations of Turbulent Flows Without Use of the Eddy Viscosity Concept

Giovanni Sutanto, Computer Science, B.Engr., Bandung Institute of Technology, Indonesia; B.Engr., Institut Teknologi Bandung, Indonesia; M.S., University of Southern California
Dissertation: Leveraging Structure for Learning Robot Control and Reactive Planning

Subhasish Sutradhar, Chemistry, B.Equiv., Indian Institute of Technology – Kanpur, India

Madison Rae Efstathiou Swayne, Urban Planning and Development, B.S., Grad.Cert., M.A., University of Southern California
Dissertation: Three Essays on Environmental Justice in Real Estate, Public Services, and Policy

Sina Taghvaee, Engineering, B.S., Sharif University of Technology, Iran
Dissertation: Stochastic Multi-Hazard Risk Analysis of Coastal Infrastructure

Kujin Tang, Computational Biology and Bioinformatics, B.S., Peking University, China; M.S., University of Southern California
Dissertation: Applications and Improvements of Background Adjusted Alignment-free Dissimilarity Measures

Meixin Tao, Medical Biophysics, B.S., Shanghai Jiao Tong University, China

Kristina Jasmine Tatiossian, Medical Biology, B.S., University of California, Davis

Zhanerke Temirgaliyeva, Mathematics, B.A., Lomonosov Moscow State University, Russia
Dissertation: Well-posedness and Long Time Behavior of Solutions of the Modified Boussinesq Equations

Ian Edgar Thacker, Urban Education Policy, B.A., University of Colorado Boulder; M.A., University of California, Berkeley; M.S., University of Southern California
Dissertation: The Influence of Numerical Estimation Skills and Epistemic Cognition in Plausibility Judgments and Conceptual Change

Catherine Marion Theis, Literature and Creative Writing, B.A., University of Vermont; M.F.A., University of Iowa; M.F.A., University of Montana
Dissertation: H.D.'s Dramatic Poetics: Tragedy, Translation, and Processional Poems

Subodh Chandra Tiwari, Materials Science, B.Equiv., Banaras Hindu University, India; B.Equiv., Indian Institute of Technology – Bombay/Powai, India
Dissertation: Quantum Molecular Dynamics and Machine Learning for Non-equilibrium Processes in Quantum Materials

Geoffrey Phi Calara Tran, Electrical Engineering, B.S., University of Hawaii at Manoa; M.S., University of Southern California
Dissertation: Data and Computation Redundancy in Stream Processing Applications for Improved Fault Resiliency and Real-Time Performance

Jason Anh Khoa Tran, Electrical Engineering, B.S., University of California, Irvine; M.S., University of California, Los Angeles
Dissertation: Multi Robot Experimentation and Consensus via Distributed Ledger Technology

Jennifer Kim Anh Tran, American Studies and Ethnicity, B.A., University of California, San Diego
Dissertation: Refugee Worlds: Reflections on Race, Politics and Everyday Living in the SF East Bay

John Joseph Tran, Computer Science, B.S., M.S., University of Notre Dame
Dissertation: Optimization of the Combinatoric Closely Spaced Objects Resolution Algorithm with Adiabatic Quantum Annealing

Trinh Khiet Tran, Development, Stem Cells and Regenerative Medicine, B.S., California State University, Long Beach

Stephanie Tsai, Craniofacial Biology, M.S., D.D.S., National Taiwan University
Dissertation: Alx1 Regulatory Network in Avian Craniofacial Morphogenesis

Chun-Chih Tseng, Genetic, Molecular and Cellular Biology, B.S., National Chung Hsing University, Taiwan; M.S., University of Southern California
Dissertation: A Novel Role of GRP78 in Regulating Cell Migration and p53 Expression

Tansel Uras, Computer Science, B.S., M.S., Sabanci University, Turkey

Vijaya Pooja Vaikari, Clinical and Experimental Therapeutics, M.S., University of Southern California
Dissertation: Clinical, Functional and Therapeutics Analysis of CD99 in Acute Myeloid Leukemia

George G. Vega Yon, Biostatistics, B.S., M.S., University of Adolfo Ibanez, Chile; M.S., California Institute of Technology

Deepak Verma, Chemistry, M.S., IISER – Mohali, India

Yatin Wadhawan, Computer Science, B.S., M.B.A., Jaypee Institute of Information Technology, India; M.S., University of Southern California

Sophia Wagner Serrano, Cinematic Arts, B.A., University of Chicago; M.A., University of Southern California
Dissertation: Visual Media, Political Activism, and the Construction of Cultural Memory in the Mexican "Drug War" (2006-Present)

Robert Lewis Walker, Petroleum Engineering, B.S., Marietta College; M.S., University of Southern California

Beibei Wang, Physics, B.S., University of Science and Technology of China
Dissertation: Neural Network for Molecular Dynamics Stimulation and Design of 2D Metamaterials

Doctor of Philosophy (continued)

Bo Wang, Physics, M.S., Shandong University, China
Dissertation: Light Emission from Carbon Nanotubes and Two-dimensional Materials

Congyue Wang, Chemical Engineering, B.Engr., Wuhan University of Science and Technology, China; M.S., M.S., University of Southern California
Dissertation: Stability and Folding Rate of Proteins and Identification of Their Inhibitors

Fangzhou Wang, Electrical Engineering, B.Engr., Tianjin University, China; M.S., M.S., M.S., University of Southern California
Dissertation: Timing Verification for Rapid Single-Flux-Quantum (RSFQ) Logic: New Paradigm, Models, and Methods

Jue Wang, Business Administration, B.A., Renmin University of China
Dissertation: Humans and Automation: Studies on the Creation of Regulations in Nascent Drone Industry

Kaidong Wang, Electrical Engineering, B.Engr., M.S., Beijing University of Posts and Telecommunications, China
Dissertation: Improving Spectrum Efficiency of 802.11ax Networks

Lu Wang, Chemical Engineering, B.Engr., Tianjin University, China
Dissertation: High-Throughput Nanoparticle Fabrication and Nano-Biomembrane Interactions

Shichen Wang, Economics, B.A., University of California, Berkeley

Weili Wang, Computational Biology and Bioinformatics, B.S., Peking University, China; M.S., University of Southern California
Dissertation: Predicting Virus-host Interactions Using Genomic Data and Applications to Metagenomics

Weinan Wang, Applied Mathematics, B.S., Chongqing University of Posts and Telecommunications, China; M.A., University of Kansas
Dissertation: Regularity Problems for the Boussinesq Equations

Ye Wang, Electrical Engineering, B.Engr., Xi'an Jiaotong University, China; M.S., Peking University, China
Dissertation: Video Object Segmentation and Tracking with Deep Learning Techniques

Yingfei Wang, Business Administration, B.S., M.Acc., University of Southern California
Dissertation: Innovation Orientation, Labor Market, and Employee Non-wage Compensation

Zhongying Wang, Molecular Biology, B.S., Shanghai Jiao Tong University, China
Dissertation: Exploring Metabolic Activity with Fluorescent Lifetime Microscopy and Omic Data Integration in Pancreatic Beta Cells

Christopher Michael Warren, Preventive Medicine, B.A., Northwestern University

Kirstin Elise Washington, Geological Sciences, B.A., M.S., University of Pennsylvania
Dissertation: Lithium Isotopes as a Carbon Cycle Proxy: Examining the Effects of High-temperature Weathering, Understanding Brachiopod Archives, and Validating Cenozoic Records

Garrett Michael Weaver, Biostatistics, B.S., M.S., University of Southern California

Wei Wei, East Asian Languages and Cultures, B.A., M.A., Beijing Normal University, China; M.A., Kanazawa University
Dissertation: Discourse Particles in Mandarin Chinese

Xiaohan Wei, Electrical Engineering, B.Engr., University of Science and Technology of China; M.S., University of Southern California
Dissertation: I. Asynchronous Optimization over Weakly Coupled Renewal Systems. II. High Dimensional Estimation under Weak Moment Assumptions: Structured Recovery and Matrix Estimation

Ariel Hannah Wein, Chemistry, B.A., Pomona College

Benjamin Robin Weiss, Sociology, B.A., Occidental College; M.A., University of Southern California

Marissiko Miriam Wheaton, Urban Education Policy, B.A., University of California, Irvine; M.A., New York University
Dissertation: Consciousness is Power: Asian Pacific Islander Desi American Critical Race Resistance

Brent Jeffrey Wilkinson, Development, Stem Cells and Regenerative Medicine, B.S., California State University, Long Beach

Robert Wodnicki, Biomedical Engineering, B.Engr., McGill University, Canada
Dissertation: Highly Integrated 2D Ultrasonic Arrays and Electronics for Modular Large Apertures

Jonathan Charles Wright, Philosophy, B.A., Biola University
Dissertation: Conceptually Permissive Attitudes

Kwame-Lante Wright, Electrical Engineering, B.Engr., Cooper Union
Dissertation: High-Performance Distributed Computing for Wireless IoT and Connected Vehicle Systems

Fanqi Wu, Materials Science, B.Engr., Central South University, China; M.S., University of Southern California
Dissertation: Printed Electronics Based on Carbon Nanotubes and Two-Dimensional Transition Metal Dichalcogenides

Hao Wu, Applied Mathematics, B.S., Nanjing University, China; M.S., M.S., M.S., University of Southern California
Dissertation: Statistical Insights into Deep Learning and Flexible Causal Inference

Qianhui Wu, Biomedical Engineering, B.S., Rensselaer Polytechnic Institute

Sharon Gao Wu, Clinical and Experimental Therapeutics, B.S., Arizona State University
Dissertation: The Role of Mitochondrial Dysfunction in Acute Leukemia

Doctor of Philosophy (continued)

Tzu-Fan Wu, Electrical Engineering, B.S., National Taiwan University; M.S., University of California, Los Angeles
Dissertation: Nonuniform Sampling and Digital Signal Processing for Analog-to-Digital Conversion

Kimberley Nicole Wunder, Development, Stem Cells and Regenerative Medicine, B.S., Arizona State University

Weining Xin, Economics, B.S., The Chinese University of Hong Kong

Huijing Xu, Biomedical Engineering, B.Engr., Shanghai Jiao Tong University, China; M.S., University of Southern California
Dissertation: Design and Application of Conformal Parylene Multi-Electrode Arrays for Multiple Sub-Region Recordings from Rat Hippocampus

Yifan Xu, Health Economics, M.S., Harvard School of Public Health

Zhiming Xu, Communication, B.A., M.A., Tianjin Normal University, China; M.A., University of Southern California
Dissertation: A Multitheoretical Multilevel Explication of Crowd-enabled Organizations: Exploration/Exploitation, Social Capital, Signaling, and Homophily as Determinants of Associative Mechanisms in Donation-based Crowdfunding

Jiaowen Yang, Mathematics, B.S., Tsinghua University, China; M.S., University of Southern California
Dissertation: Information Geometry and Optimal Transport

Xiufeng Yang, Mechanical Engineering, B.Engr., M.Engr., Huazhong University of Science and Technology, China; M.S., University of Southern California

Yuxiao Yang, Electrical Engineering, B.Engr., Tsinghua University, China; M.S., University of Southern California
Dissertation: Closed-Loop Brain-Machine Interfaces for Control of Brain States

Zhi Yang, Biostatistics, B.S., University of Science and Technology of China; M.S., University of Illinois at Chicago

Chia-An Yen, Molecular Biology, B.S., University of California, San Diego

Belinda Yew, Psychology, B.A., University of New South Wales, Australia; M.A., University of Southern California
Dissertation: Dynamic Cerebrovascular Resistance in Aging and Cognitive Decline: Investigation Using Paced Breathing and Hypercapnia

Joycelyn Kay Yip, Biomedical Engineering, B.S., M.S., University of Southern California

Caiqun Yu, Chemistry, B.S., California State University, Sacramento

Gene Jong Yu, Biomedical Engineering, B.S., University of Illinois at Urbana-Champaign
Dissertation: Functional Consequences of System Architecture and Scale in a Computational Neuronal Network Model of the Hippocampus

Qian Yu, Electrical Engineering, B.S., M.S., Massachusetts Institute of Technology
Dissertation: Coded Computing: A Transformative Framework for Resilient, Secure, Private, and Communication Efficient Large Scale Distributed Computing

Rachel C. Yuan, Neuroscience, B.A., University of Southern California
Dissertation: Sensorimotor Integration in Parallel Cortico-basal Ganglia Loops during Vocal Learning

Kun Yue, Electrical Engineering, B.S., Florida International University

Jeonghwan Yun, Economics, B.A., M.A., Yonsei University, South Korea

Ali Zarei Baygi, Engineering, B.S., Technical and Engineering Campus of Shahid Beheshti University, Iran
Dissertation: Fate of Antibiotic Resistance in Anaerobic Membrane Bioreactors

Chubing Zeng, Biostatistics, B.S., Wuhan University, China; M.S., Columbia University

Chen Zhang, Neuroscience, B.Engr., Tsinghua University, China; M.S., University of Southern California
Dissertation: Early Screenings for Neurological Populations via Altered Eye Movement Control and Brain Functions

Dong Zhang, Mathematics, B.S., Peking University, China; M.S., University of Southern California
Dissertation: Congestion in Negative Curvature

Heming Zhang, Electrical Engineering, B.S., M.S., Delft University of Technology, Netherlands
Dissertation: Local-aware Deep Learning: Methodology and Applications

Mengge Zhang, Computational Biology and Bioinformatics, B.S., Tsinghua University, China
Dissertation: Study of Virus-Host Infectious Relationship with Supervised Learning Methods

Tian Zhang, Medical Biology, B.S., South China University of Technology; M.S., University of Southern California

Yue Zhang, Molecular Pharmacology and Toxicology, B.S., M.S., The Ohio State University; M.S., Cornell University
Dissertation: Functional Study of NLRPn and Molecule Interaction

Huan Zhao, Electrical Engineering, B.S., Nanjing University, China; M.S., University of Southern California
Dissertation: 2D Layered Materials: Fundamental Properties and Device Applications

Mengtian Zhao, Psychology, B.A., University of Notre Dame; M.A., University of Southern California
Dissertation: Preparing for Natural Disasters: Investigating the Effects of Gain-Loss Framing on Individual Choices

Qianwei Zhao, Social Work, B.L., Shandong University of Finance and Economics, China; M.S.W., University of Pennsylvania
Dissertation: Incarceration Trajectories of Mothers in State and Federal Prisons and Their Relation to the Mother's Mental Health Problems and Child's Risk of Incarceration

Doctor of Philosophy (continued)

SPECIAL AWARDS

Academic Honors

Valedictorian

Every university has its own set of traditions for selecting commencement speakers and honorees. The custom at the University of Southern California is to name one student as the valedictorian and one or more students as salutatorians. The valedictorian delivers the address on behalf of the graduating class at the university's commencement ceremony.

The selection process at USC differs considerably from that of most high schools, where recognition is based solely on cumulative grade point average. Under that system, the valedictorian and salutatorian are ranked first and second, respectively, in their class. USC's process recognizes the highest levels of academic achievement, while taking a more holistic view of a student's time at the university.

All graduating students who have earned a cumulative USC grade point average of 3.98 or higher as of the conclusion of the fall semester are invited to apply to be named valedictorian. A panel of senior faculty members, drawn from across the university, reviews all applications, with the selection based on the following factors:

Grade point average
Number of course units completed at USC
Breadth of academic program
Challenge of academic program
Contribution to university and community life

Isabella Sarah Hauptman, *Cognitive Science*

Salutatorians

Thomas Jae Hyun Kim, *International Relations*

Steven and Kathryn Sample Renaissance Scholars

Steven and Kathryn Sample Renaissance Scholars are students who graduate with a major and minor or two majors that are in widely separated fields of study. A faculty panel certifies the breadth of their academic programs. To earn this academic honor, students must graduate with no less than a 3.5 overall grade point average and no less than a 3.5 grade point average in at least two distinct fields of study. Each year, 10 Renaissance Scholars are selected to receive a $10,000 prize toward graduate study.

Warren Bennis Scholars

The Warren Bennis Scholars Program is a university-wide initiative offered by the Office of the Provost through the Brittingham Social Enterprise Lab at the USC Marshall School of Business. Each year, 20 students across academic disciplines are selected at the end of their sophomore year to receive intensive leadership training and access to top USC professors. The program honors USC Distinguished University Professor Warren G. Bennis, an internationally recognized authority on leadership who mentored countless students during his distinguished 35-year career at USC.

Nationally Competitive Scholarships and Fellowships

David L. Boren Scholarship for International Study

The David L. Boren Scholarship provides funding for U.S. undergraduate students studying in Africa, Asia, Central and Eastern Europe, Eurasia, Latin America and the Middle East. Boren Scholarships require rigorous language study, and the majority of awardees spend a full academic year overseas. In exchange for funding, Boren Scholarship recipients commit to working in the federal government for at least one year after graduation.

Student Recognition Awards

Order of the Laurel and the Palm
Exemplary leadership and high achievement characterize those selected for the Order of the Laurel and the Palm, the highest honor accorded to undergraduates completing their programs of study. Recipients display significant leadership that touches multiple facets of university life and have made notable contributions that leave a lasting impact on the university community or the world at large through their commitment to service and valuing of the university's highest goals and ideals. Less than one percent of undergraduates earning their degrees are selected for this honor.

Order of Areté

Areté, taken from the Greek, means virtue or excellence in attaining one's utmost human potential. Members of the Order of Areté have distinguished themselves among their peers through campus or community leadership roles beyond those required for their programs of study, often making notable contributions to the university, academic discipline, community or world at large. In these leadership roles, members demonstrate significant depth and scope of responsibility, and they are recognized for upholding value and meaning over individual achievement. The award represents the highest honor accorded graduate students upon completion of their academic programs.
